A Snowman in Summertime

by: Jordan Allred
I met a snowman in the summer when I was walking to Desert Ridge. I saw a gigantic snowman. He was...
outstanding. He talked and walked. His name was Frosty. He was important because he was President Frosty. Alfred, he made up the rules for Summerland and Winterland. Summerland and Winter were divided by a river. Frosty's first rule was that no snow...
Laws

or showwomen were allowed to be mean. The second rule was that no Summerland animals were allowed in.
Winterland at any time
The third rule is that when people from Summerland go to Winterland they MUST wear warm clothes.
I said hi and we became friends. I took him to David 8 Busters. We had fun playing Milk Jug.
I said do you ever melt? He said NO!

He was wonderful. He was born in Summer-

land. He lives in Summer-
and but he likes to visit Winterland.
He didn't have a family, so he joined our family.
