The Little ParaKeeT
The Little Parakeet

Angeli Loewy

One day in the rainforest there was a green parakeet. Every animal in the rainforest said she was way too small to do anything. One day there was no food left. So all the animals would go hungry. The little parakeet went to go look for food. She looked for hours and hours. Then she saw a hole in a tree.
Angeni

She flew into the hole. The hole was really big. There was a tunnel that led down into the tree. In the tunnel, there was a monkey. The monkey had all of the food. The monkey was scared of the parakeet. So the little parakeet went back home with all the food. All the animals now said your never too small to do anything!
