Together, We Achieve
On a fine spring evening
Emily, Sara and Helen were playing the ball in a park.
While playing, the ball caught in a branch of the tree. The tree was tall for the girls to reach.
They started blaming each other for a long time. Everyone tried to take the ball by their own. But in vain.
The Sun started going down, the ball was still on the tree. They all were worried.
Finally, they thought it's not a good thing to blame each other and try oneself. Instead, they could all work together to get the ball.
They came up with an idea of climbing each other's shoulder to reach the ball. And finally they got the ball.
When they walked towards home, they all realized the value of being together.
THE END.
