PBS LearningMedia

Setting Browsing History in Internet Explorer

When creating a Class Page and working with My Favorites, there is a setting in Microsoft Internet Explorer that allows a more fluid experience. If you have Favorited a resource inside of PBS LearningMedia, and the resource does not show up in My Favorites, changing the IE setting will take care of the issue.

Also, if your Class Page does not seem to be working as it should, changing the IE setting should help.

1. While IE is open, go to Tools in the Menu Bar and click on Internet Options.

2. Click on the Settings button under Browsing History.

3. Select the Radio Button that states, “Every time I visit the webpage”. Click OK. Click OK.
